

## **Marketplace Citizenship Data Matching Insufficient Document Notice (damaged or unreadable)**

Example: Anne Lee applied to enroll in a qualified health plan (QHP) through the Marketplace. The Marketplace couldn't verify Anne's citizenship status. The Marketplace asks Anne to submit documentation to prove her citizenship status, and determines Anne is temporarily eligible to enroll in a Marketplace plan. Anne enrolls in a Marketplace plan, but the document(s) she submits to prove her U.S. citizenship are damaged or unreadable. This notice lets Anne know that she needs to submit a readable version of the requested documents to prove her status or she will lose her coverage through the Marketplace at the end of her inconsistency period.

If you don't submit these documents, you won't be able to keep your Marketplace health coverage, along with any financial help that you may be getting. Upload the needed document(s) to your account at HealthCare.gov or send a copy to the Marketplace.

There are two ways to send documents to the Marketplace:

1. The fastest option is to **upload documents online**. Log in to your Marketplace account on HealthCare.gov by clicking on "Log in" at the top of the page. Once you're logged in, select your current application and then use the menu on the left side of your screen to click on Application Details. On the next screen, you'll see a list of any data matching issues (called "inconsistencies" on the screen) in your application. Follow the steps for each inconsistency (data matching issue) to upload the documents needed to fix the issue. If your application has more than one inconsistency or more than one person has inconsistencies, work through the steps to upload documents for each one. **Note:** Please don't use the following characters in the name of the file that you upload: / \ : \* ? " < > |.
